Co-ordinating Committee

Export of Electronic Ground Servicing Equipment to the  
Soviet Union

Memorandum by the United Kingdom Delegation

The United Kingdom authorities have been asked to approve the export on loan to Aeroflot Limited of the U.S.S.R. of the following specialised items of ground servicing equipment:-

- 1 Bench Rig complete with Connectors
- 1 Aerial Amplifier Type 803 S/N 11.
- 1 Type 331 Display Head S/N 641.
- 3 Decometers Type 802 (RGP) S/N 205.
- 1 Type 839 Control Unit S/N 86.
- 1 Type 801 Control Unit S/N 38.

2. These equipments are required to enable ground servicing to be carried out in Moscow on the two Mark X airborne equipments which have been supplied for free loan evaluation trials in aircraft which participate in scheduled commercial flights to free world destinations. The export of the Mark X airborne equipments was permitted by the United Kingdom authorities under the note to I.L. No. 1501 (b) (2) of COCOM document 3300 and was notified to the Committee in the United Kingdom's statistical return for October 1959. The period of the loan has now been extended from six to twelve months.

3. The total value of the servicing equipments is approximately \$ 2,700 and they are covered by I.L. 1501 (f) of COCOM document No. 4000.

4. Her Majesty's Government wish to authorise the export of these items on loan for the period of the evaluation trials as a servicing exception. Her Majesty's Government would be grateful for the views of member governments by April 7 or on a bilateral basis to the United Kingdom Delegation by April 13.
